BCL

High performance Cross-linked Shrink film

- Multi-layer, high clarity cross-linked Shrink film.
- Versatile film designed for a wide range of products.
- Strong seals on a wide range of sealing systems.
- High Tensile strength and tear resistance.
- Excellent machinability.

BCL

High performance Cross-linked Shrink film

Technical Features

Properties	40 gauge	60 gauge	75 gauge	100 gauge
Yield (MSI/LBS)	75	51	40.3	30.6
Gloss (45°) in %	89.5	88	87	86
Haze (%)	2.1	2.6	3.5	3.8
Free Shrink (%) @ 200° F		MD 16	TD 26	
@ 250° F		MD 62	TD 66	
Tensile strength (psi)	18,000	19,580	19,580	19,580
Elongation (%)	120	130	130	140
WVTR (gm/100 sq. inch/24 hrs.)	2.6	1.9	1.4	1.0
O2 Permeability (cc/m²/24 hrs.)	12,600	9,500	6,200	5,400
Roll Length (feet) Centerfold (CF)	6,560	4,375	3,500	2,625
Singlewound (SW)	13,120	8,750	7,000	5,250
Core Internal Diameter (inch)			3"	
Nominal outside diameter (inch)			9.5"
